Middelburg Aero Club is the official recognised legal body who has an agreement with the local council, to administrate the Airfield.

Middelburg Aero Club has a prime objective to promote all forms of safe aviation while ensuring that the facilities at our disposal are used to optimise this objective.

It has thus become necessary to structure and make official the rules pertaining to membership and use of the airfield.

Submit plans to the Town Engineer for approval. Take control of the building process and take responsibility for your contractors or suppliers. Any damage caused by contractors will be rectified by the lessee. Remember the taxi ways are not built for heavy vehicles.

A hangar must be erected to approved plans/standards within 24 months of signing the Lease Agreement or the stand will be allocated to the next applicant on the waiting list.
